### BUSINESS OWNER'S POLICY

A BOP can help protect your business much the same way that a homeowner's policy protects your home and personal possessions. The Hartford's BOP combines these essential coverages to provide a cost-effective solution to help safeguard your business:

- **Business Property insurance** to help protect the property you own, lease or rent
- **Business Liability coverage** to help protect your business in the event it is responsible for causing harm to a person and/or damage to property
- **Business Income coverage** to help protect lost income if your business is forced to close due to direct physical loss or damage to its premises resulting from a covered cause of loss

### COVERAGES THAT KEEP YOUR BOTTOM LINE TOP-OF-MIND

In addition to among the most robust liability and property coverages available, The Hartford also offers a wide range of optional coverages that can help tailor your insurance program.

#### Cyber Liability

Helps cover the cost of things like complying with notification requirements to affected individuals, and credit monitoring (when warranted) if sensitive customer information is lost or stolen. Available options can help protect against loss of income and help pay for extortion or ransom payments associated with a data breach threat.

#### Electronic Data and Interruption of Computer Operations

pays to replace or restore electronic data that has been destroyed, corrupted, or made inaccessible by a computer virus or covered loss, and any loss of business income.

**Employment Practices Liability (EPL)** helps provide coverage if you're sued by an employee, patron or vendor alleging discrimination, sexual harassment, wrongful termination or other types of claims relating to your employment practices.

**Hired Non-owned Auto Coverage** can help cover property damage or bodily injury that your business, using a hired auto or non-owned auto, caused to someone else in an accident.

**Pet Groomers' Professional Liability** coverage helps if you're sued for damages resulting from the professional services you provide, or the failure of those services to perform as intended – claims not generally covered by a general liability policy. This coverage also helps cover the cost of your defense.

**Builder's Risk Coverage** is a specialized type of property insurance that helps protect buildings under construction. It helps protect property damage due to: fire, lightning, hail, explosions, theft, vandalism, etc. A store owner with a financial interest in the construction project needs builder's risk insurance. It covers materials, supplies and equipment on site, in transit or at other locations.

**Stretch®** - Many optional property coverages offered by The Hartford are available separately or in cost-effective packages called Stretch. You can easily tailor a program to meet the specific needs of your business.

## WORKERS' COMPENSATION

For a business like yours, one employee's absence can be felt by the whole team. It's why, for over a century, The Hartford's workers' comp program has set the standard for injured worker care, helping employees quickly return to health and productivity. The Hartford also offers Pay As You Go Billing, which allows you to pay your workers' comp policy premiums based on actual payroll instead of last year's headcount, helping to manage your cash flow.
